TeleTrader / Paid Internship in October Software Developers (m/f)

TeleTrader d.o.o. is part of TeleTrader Software Group, a company specialized in developing products for the financial markets, offering a broad portfolio of tools for the storing, processing, visualization and analysis of market data coming from world-wide exchanges.

TeleTrader as an internationally acting company head-quartered in Vienna, Austria, is selling its products in Europe, North America and Asia and is developing its software in Belgrade.

We are offering Paid Internship for students with the interest of diving deep into software development in one of our teams. Our teams have a diverse focus, some areas we work in are:

- Web frontends (JavaScript)
- Apps and rich client applications (Swift, iOS, Mac OS, Java, Android, MSVC++)
- Server side web projects (C#/.NET)
- Middleware (XML, Web Services, C#/.NET)
- Server side infrastructure development (MSVC++)

This gives you various opportunities to develop your strengths in a professional software development organization.

Requirements:

- Good knowledge of OO design, algorithms, data structures, design patterns and efficient programming
- Good understanding of at least one of the technologies we use, as mentioned above
- You are willing to work in highly demanding software projects
- Ability to effectively communicate and cooperate with peers
- Fluent written and spoken English

Offer:

- Work in an established company with market leadership
- Be part of a young and dynamic team
- Solid work environment in a central location in Belgrade
- Professional physiotherapist (massage and exercises)

We would be pleased to receive your CV including the area you are interested in most, until September 10th 2015.

Please send your application to olivera.bugarinovic@teletrader.com
